SUMMARY

- **Full-stack web developer** with over **3 years of professional experience** in designing, developing, and deploying web applications.

- Strong expertise in both **front-end** and **back-end development**, ensuring **seamless user experiences** and **robust system functionality**.

- Skilled at transforming **complex technical requirements** into **efficient, scalable solutions**.

- Proven track record of completing projects **independently** and **collaboratively**, working effectively with **diverse teams** and **clients**.

- **Organized** and **detail-oriented**, adept at managing **multiple projects** and meeting **deadlines** in **dynamic, fast-paced environments**.

- Proficient in a **wide range of web development frameworks**, tools, and technologies, with a commitment to staying updated with **industry trends**.

- Passionate about **learning** and applying **new technologies** to drive **innovation** and deliver **exceptional results**.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, HTML, CSS, PHP, Markdown, SQL

Frameworks: Flask, React, Django, Laravel, Vue.js, Angular, Node.js (with Express.js), FastAPI, Spring Boot, Bootstrap, NEXT.js, Tailwind CSS

Databases: MySQL, MongoDB, PostgreSQL, Fauna, HarperDB, SQLite, MariaDB, Redis

Tools: Postman, Swagger, Figma, Docker, GIT, GitHub, GitLab, Redocly, Apache, AWS, GCP, Azure, Heroku, GitBook, Notion, Selenium, Jupyter, Docusaurus, Nginx, GraphQL, Snagit, Mermaid, Webpack, npm, Yarn, Webflow, CMS platforms: Wordpress, Shopify, Photoshop, Wix.

Development Skills: Full-Stack Web Development, UI/UX Design (Wireframing, Prototyping, Usability Testing), SEO Optimization (On-page SEO, Technical SEO, Performance Optimization), Blockchain Development (web3), Technical Writing, Usability Testing and Research, Documentation Engineering, Data Science and Machine Learning (DS/ML), Software Development Life Cycle (SDLC), Test Driven Development (TDD), Responsive Design, RESTful APIs, GraphQL APIs, Public Speaking

WORK EXPERIENCE

Full-stack Web Developer | Multiple clients   January 2019 to Present

As a freelance full-stack web developer, I specialize in creating robust, scalable, and user-centric applications that meet diverse client needs.

- **Led the development and delivery** of end-to-end web solutions for clients, from requirements gathering to deployment, ensuring high-quality, user-focused outcomes.

- **Built and maintained documentation** for client projects, providing clear, detailed resources to support seamless integration and understanding for stakeholders.
- **Streamlined project workflows** by developing style guides, reusable templates, and best practices, ensuring consistency and efficiency across deliverables.
- **Represented clients' projects** in meetings and presentations, effectively communicating technical solutions to non-technical stakeholders and fostering collaboration.
- **Collaborated with global teams and clients**, leveraging modern frameworks and tools to deliver projects aligned with business goals.

Front-end Web Developer | AISOD TECH   January 2023 to March 2023

As a frontend web developer at AISOD Tech, I collaborated with diverse clients and cross-functional teams to deliver efficient, user-friendly, and visually appealing interfaces tailored to client needs.

- **Developed and implemented responsive, scalable, and maintainable front-end code** using modern web development technologies and frameworks.
- **Designed and enhanced user interfaces and experiences (UI/UX)**, ensuring cross-browser compatibility and adherence to best practices.
- **Implemented and maintained new features and functionalities**, integrating seamlessly with backend services and APIs while adhering to agile methodologies.
- **Worked closely with clients, engineers, and designers** to define clear specifications and deliver innovative, problem-solving designs.
- **Optimized front-end workflows** by establishing efficient build pipelines, integrating version control (GitHub), and collaborating with cloud platforms for testing and deployment.
- **Ensured scalability and performance** of web applications, keeping user satisfaction and accessibility as top priorities.

EDUCATION and QUALIFICATIONS

Abia State University - B.Sc In Computer Science
